Course Title: IBM OpenPages: Create Standard Reports-Part 1

Description:

This course teaches IBM OpenPages GRC Platform report authors how to create reports using an OpenPages standard framework model. They will learn best practices for creating OpenPages reports using enumerated fields, identifiers, OpenPages reporting functions, definition map expressions, and many other topics that will prepare Cognos Analytics - Reporting authors to create sophisticated reports using OpenPages data. The course uses many video demonstrations showing how to create list, crosstab, chart reports and prompt pages using OpenPages data. Participants that complete the course and pass a quiz will receive a course completion certificate.
