

Course Code: AN12D2DGS

Course Title: AIX Implementation and Administration Part 2 (Digital course)

Description:

Students perform AIX management tasks like scheduling jobs, system backups, starting up and shutting down the system, installing AIX, software maintenance tasks, and TCP/IP configuration. This course is the second of a sequence of two courses covering basic AIX management tasks.

Objectives:

- Utilize administrative subsystems, including Cron, to schedule system tasks
- Create and restore system backups
- Perform system startup and shutdown
- Install the AIX operating system
- Perform AIX software maintenance tasks
- Perform AIX network configuration

Duration:

16 Hrs

Topics:

- Unit 1: Scheduling
- Exercise 1: Using Scheduling
- Unit 2: Backup and recovery
- Exercise 2: Backup and recovery
- Unit 3: Startup and shutdown
- Exercise 3: Startup and shutdown
- Unit 4: AIX and software installation
- Exercise 4: AIX and software installation
- Unit 5: AIX installation options
- Exercise 5: AIX installation options
- Unit 6: TCP/IP implementation
- Exercise 6: TCP/IP implementation
- Unit 7: AIX Live Update Video Demo
- Badge Quiz

Audience:

Enrollment in this course is not restricted.
