Course Code: F2940G

Course Title: Customize the IBM Case Manager Client User Interface (V5.3.2)

Description:

In this course, you will customize IBM Case Manager Client without using much code. In an IBM Case Manager system, you will create pages with custom layout and implement new actions by configuring buttons and menu items. You will use the Calendar widget to track case events and a Script Adapter widget to transform the data. You will learn how to wire two widgets together to establish communication, customize views for case properties including business objects, specify viewers for documents, and implement External Data Services to create dependent choice lists.

Objectives:

Create custom pages and use Free Form page layoutCustomize toolbars and menus to add actionsConfigure a Calendar widgetWire two Widgets togetherUse Script Adapter widgetCustomize properties viewsSpecify viewers for file typesImplement External Data Services

Prerequisites:

Knowledge of IBM Case Manager concepts and the ability to manage cases in the client, orIBM Case Manager Essentials (V5.3.2) (classroom)(F2900G), orIBM Case Manager Essentials (V5.3.2) (self-paced) (F2909G)The ability to build an IBM Case Manager solution, orBuild an IBM Case Manager Solution (V5.3.2) (classroom)(F2910G), orBuild an IBM Case Manager Solution (V5.3.2) (self-paced) (F2919G)

Duration:

8 Hrs

Topics:

Create custom pages

- Create a custom Solution page
- Customize the default Case Details page
- Create a page with Free Form page layout

Customize toolbar and menu

- Customize the toolbar to implement actions
- Add a custom action as a menu item

Add a Calendar widget

- Configure the Calendar widget and subscribe to external calendars
- Create and view quick tasks in the Calendar widget
- Add the Show Calendar action to the toolbar
- Use the Calendar widget in the Free Form page layout

Wire widgets

- Describe widgets
- Define types of events available for widgets
- Wire two widgets together
