Course Code: I2000GW

Course Title: Learn to use Data Science Experience

Description:

This course is designed to introduce students to IBM Data Science Experience. The course covers how to create and set up a project and to be familiar with how to create, code, collaborate, and share notebooks while working with a variety of data sources to analyze data.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. http://www.ibm.com/training/terms

Objectives:

Define DSXSet up a projectWork with collaboratorsManage data assetsDescribe Jupyter notebooksCreate notebooksCode and run notebooksShare and publish notebooks

Duration:

2.4 Hrs

Topics:

Introduction to IBM Data Science Experience

- Define DSX
- Set up a project
- Work with collaborators
- Manage data assets

Analyzing data with DSX

- Describe Jupyter notebooks
- Create notebooks
- Code and run notebooks
- Share and publish notebooks

Audience:

Data Scientist, Data Engineer, Application Developer
