

Course Code: 10273GW

Course Title: IBM OpenPages: Create Standard Reports-Part 2

Description:

This course teaches IBM OpenPages GRC Platform report authors how to create reports using an OpenPages standard framework model. They will learn best practices for creating OpenPages reports various query operations, for example direct joins, indirect joins, unions, and many other topics that will prepare Cognos Analytics - Reporting authors to create sophisticated reports using OpenPages data. The course uses many video demonstrations showing how to create list, crosstab, chart reports and prompt pages using OpenPages data. Participants that complete the course and pass a quiz will receive a course completion certificate.

If you are enrolling in a Self Paced Virtual Classroom or Web Based Training course, before you enroll, please review the Self-Paced Virtual Classes and Web-Based Training Classes on our Terms and Conditions page, as well as the system requirements, to ensure that your system meets the minimum requirements for this course. <http://www.ibm.com/training/terms>.

Objectives:

- use a variety of query operations with OpenPages data
- use joins to create Issue reports
- create direct joins
- create indirect joins
- use unions with multiple namespaces
- use unions with multiple joins

Prerequisites:

- IBM OpenPages: Create Standard Reports-part 1
 - Course code **10272G**
- Experience using basic browser functionality

Duration:

7.2 Hrs

Topics:

Topics Covered

- Query Operations

Audience:

This intermediate course is intended for those experienced report authors who will create IBM OpenPages reports using IBM Cognos Analytics 11.0 Reporting.
